Selecting a Ramp

We offer a wide variety of wheelchair and scooter ramps and it is easy to get confused as to the right ramp for your situation. If you are unsure of which type to use, we suggest you try our Ramp Wizard™ on our web site or call our toll free customer service at 866-491-1110.

Use this handy chart to help determine the proper ramp length for you. Please follow these steps:

1. Measure the total vertical height you will need to climb (in inches).
 - For stairs, measure each stair and add them together
 - For Vans, measure from the ground straight up to the highest point inside the van you will need to reach.
 - For other applications, like porches, measure from the ground straight up to the highest point you will need to reach.
2. Using number of inches you determined in step 1, find that number of inches you need to climb on the right side of the chart.
3. Follow the row across to the left. As you follow across, any column with numbers in it indicates that a ramp may* be used at that height. The numbers in the chart indicate the approximate angle of wheelchair ramp slope at that height.
4. Follow the appropriate column to the bottom and see the corresponding ramp length.
5. Consult the user manual that came with your wheelchair or scooter to determine any slope (angle) restrictions that may apply and select a ramp that meets those requirements. Never use a handicap ramp that exceeds the ramp slope requirements of your chair/scooter.

General Guidelines for Ramp Use:

- **Never exceed your equipment's recommendations.**
- Generally, it is best to stay under 10 degrees.
- 11-13 degrees maximum for pushing a patient up in the chair.
- 15 degrees maximum for walking behind & pushing up an empty chair.
- 17 degrees maximum for loading an empty chair from beside the ramp.
- The longer the ramp is, the easier it is to use.

*Consult your equipment's manual for incline restrictions and never exceed its recommendations for wheelchair ramp slope.

Signature Series Suitcase Portable Wheelchair Ramps

EZ Access Signature Series Suitcase Ramps

- Use with Wheelchairs or Scooters
- Great for Stairs, Decks & more
- Easy to use Center Folding Ramp
- Ramps Support up to 800 lbs
- 3-year Warranty & Fast, Free Shipping!

Signature Suitcase Portable Wheelchair Ramps - This single-fold aluminum ramp is for scooters and all wheelchair types. Designed for access over steps, curbs, and raised landings. The 6-8 foot Suitcase ramps may be used with many minivans. These ramps are designed to be safe, easily portable, easy to use and durable. They are 30" wide and available in 2, 3, 4, 5, 6, 7 or 8 foot lengths. (**Please note:** Suitcase ramps fold width wise, but do not fold lengthwise. If you need a ramp that folds shorter, please see our Trifold Ramp.)

Simply unfold this hinged wheelchair ramp in position and it's ready for use. The ramp folds in half for easy carrying like a suitcase with its built-in carrying handle. They are compatible with the Top Extension Lip (TLE - see facing page) for use with Vehicles. This aluminum wheelchair ramp features a durable, non-skid driving surface and safety edge to prevent accidentally rolling off the side. Suitcase ramps are perfect for indoor or outdoor applications, support up to 800 lbs., and are easy to use on a variety of surfaces.

Free standard shipping - 3 year manufacturer's warranty. (One Piece, hinged design)

Advantage Series Suitcase Portable Wheelchair Ramps

EZ Access Advantage Series Suitcase Ramps

- Use with Wheelchairs or Scooters
- Lighter 2-piece portable design
- Great for Stairs, Decks, Vehicles & more
- Ramps Support up to 800 lbs
- 3-year Warranty & Fast, Free Shipping!

Suitcase portable wheelchair ramps were completely redesigned to offer you even greater mobility and versatility. They offer the length required for wheelchairs and scooters to access many mini vans, steps, and raised landings with ease. These portable aluminum ramps are designed to be safe and easy to use on a variety of surfaces. They are 30 inches wide and available in 2, 3, 4, 5 or 6 foot lengths. This is easily the best suitcase ramp on the market today! **(Please note:** Suitcase ramps fold width wise, but do not fold lengthwise. If you need a ramp that folds shorter, please see our Trifold Portable Wheelchair Ramp.)

Leave them together or split them in half to move them easier, the choice is up to you. The unique design of these ramps allows them to quickly split into two pieces (simply remove two pins) to make them easier and lighter to move or store. They are easy to use and provide a strong, solid driving surface that is compatible with virtually all standard wheelchairs (manual or electric), scooters (3 or 4 wheel) and walkers.

Suitcase ramps are a great lightweight portable ramp. Made of aircraft-grade aluminum, it features a durable, non-slip driving surface and an edge along each side for safety. It also features a self-adjusting bottom transition plate for a smoother transition from the ramp to the ground. Designed to be easily portable, yet durable. **Guaranteed in Stock with Fast Free Shipping & 3 year Manufacturer's Warranty!**

Optional Extension Lip
The Suitcase Ramp has an optional Top Lip Extension (see above) that increases the standard 3 inch top lip to a 9 inch lip allowing the ramp to easily clear the rear bumper of most SUV's, Mini-vans and more.

Aluminum Adjustable Threshold Ramps

EZ Access Aluminum Threshold Ramps

- Use with Wheelchairs or Scooters
- Provides a solid driving surface
- Great for Door Thresholds & Single Steps
- Adjustable legs with swivel feet, perfect for uneven surfaces
- Lightweight, high-strength aluminum
- Ramps Support up to 700 lbs
- 3-year Warranty & Free Shipping

Adjustable Threshold Ramps - The Transitions Angled Entry Ramp – is a portable, stand-alone threshold ramp featuring independently adjustable legs with swivel feet, allowing for vertical adjustment ranging from 1-3/8 to 5-7/8 inches in height. This free-standing portable threshold ramp is ideal for doorways that swing in and out, uneven surfaces or single step rises.

Simply measure the height of the door entry or step and choose the correct size for your application. If you are in between two sizes, it is usually better to go with the taller of the two. They install easily in minutes and provide a solid, non-skid driving surface that supports up to 700 lbs. **Guaranteed in Stock with Fast Free Shipping & 3 year Manufacturer's Warranty!**

12 Inch Long Adjustable Threshold Ramp

Item # 5112 - \$79.95

Range of use: 1 3/8" H to 2 3/4" H
 Dimensions: 37"W x 12" L
 Weight*: 5 lbs.
 Capacity: 700 lbs.

24 Inch Long Adjustable Threshold Ramp

Item # 5124 - \$119.95

Range of use: 1 5/8" H to 4 3/4" H
 Dimensions: 37"W x 24" L
 Weight*: 10 lbs.
 Capacity: 700 lbs.

36 Inch Long Adjustable Threshold Ramp

Item # 5136 - \$149.95

Range of use: 3 1/4" H to 5 7/8" H
 Dimensions: 37"W x 36" L
 Weight*: 15 lbs.
 Capacity: 700 lbs.

Threshold Ramps are designed to be left in place. If you are looking for a portable ramp, please look at the suitcase ramps.

Aluminum Threshold Ramps

EZ Access Aluminum Threshold Ramps

- Use with Wheelchairs or Scooters
- Provides a solid driving surface
- Great for Door Thresholds & Single Steps
- Ramps Support up to 600 lbs
- 3-year Warranty & Free Shipping

Threshold Ramps - These aluminum threshold ramps are designed to provide easy access to door thresholds, single steps, raised landings, sliding glass doors and more. They are made from lightweight, yet durable aluminum with a rust proof finish making them ideal for either indoor or outdoor use. They are great for use with Wheelchairs, Scooters, Walkers and more. Threshold ramps may be used either one by itself or two combined (center picture) to make entry and/or exit convenient and safe.

Simply measure the height of the door entry or step and choose the correct size for your application. If you are in between two sizes, it is usually better to go with the taller of the two. They install easily in minutes and provide a solid, non-skid driving surface that supports up to 600 lbs. All sizes of the threshold ramps are 34" wide, are 9.6 degrees (incline) and compatible with almost any wheelchair or scooter. **Guaranteed in Stock with Fast Free Shipping & 3 year Manufacturer's Warranty!**

Cargo Wedge Ramps

Threshold without Cargo Wedge

EZ Access Cargo Wedge Ramps

- Use with Wheelchairs or Scooters
- Installs with no Vehicle Modifications
- Easily Trimmed for a Custom Fit
- Ramps Support up to 850 lbs
- 3-year Warranty & Free Shipping

Cargo Wedge Ramps - This rubber wedge ramp is the ideal solution when recessed cargo areas leave you in a rut. Without altering the vehicle, the cargo wedge compensates for the difference (up to 2.5") between the rear door threshold and the lower level cargo area, allowing mobility equipment access with a smooth transition. Made of durable recycled tire rubber, they have a slip-resistant surface.

These Cargo Wedge ramps are easy to install in minutes. They are quickly trimmed for a custom fit. Use together with a Trifold ramp for an easy transport system for mobility equipment. **Guaranteed in Stock with Fast Free Shipping & 3 year Manufacturer's Warranty!**

Rubber Cargo Wedge Ramp - Item # 6350 - \$159.95

Usable Size: 24" L x 48" W
Range of Use: Up to 2.5" H
Weight*: 40 lbs.
Capacity: 850 lbs.

Consult your equipment's manual for incline restrictions and never exceed its recommendations.

Pathway Modular ADA Wheelchair Ramps

EZ Access Pathway Modular Wheelchair Ramps

- Meets or exceeds ADA wheelchair ramp specifications (section 4.8)
- Use with Wheelchairs, Scooters & more
- Easy to install!
- Virtually Maintenance Free!
- Easy to expand, reconfigure or move
- Made of durable, lightweight aluminum that does not rust, rot or decay
- Standard 36" usable width. Available in 48" or custom widths.
- Ramps Support up to 850 lbs. and have a permanent non-skid surface
- 3-year Warranty & Fast, Free Shipping

Modular Wheelchair Ramps - These Modular Ramps comply with ADA specifications and offer quick and convenient installation and removal. This innovative modular wheelchair ramp is designed to use less hardware and have no pre-assembly required. It is designed to address the accessibility needs of the residential and light commercial market. Our Modular Wheelchair Ramps are an excellent choice when accessibility needs extend beyond the scope of portable ramps for wheelchairs, scooters and more. These Modular wheelchair ramps are far superior to ordinary modular ramps and old fashioned wooden construction ramps.

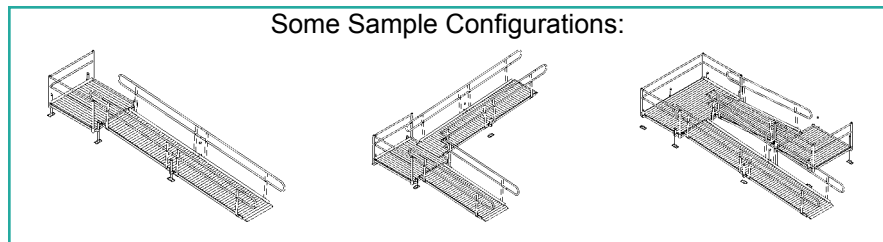

We have created a whole new concept for designing, ordering, and installing the perfect modular ramp system. A 24 foot modular ramp system can be installed in about 30-60 minutes! Our modular ramp system is perfect for temporary or permanent use. Designed and built with lightweight, yet strong and durable aircraft grade aluminum, they do not rust and are ideal for indoor or outdoor use. These ramps are perfect for use with wheelchairs, scooters, walkers and most other mobility needs.

Modular ramps are configured to your site's specific needs for a custom fit. Typically, pricing is estimated at about \$100-120 per foot and varies slightly by configuration. Please contact us for more information or a specific price quote.
